### About Hua Medicine

Hua Medicine (The "Company") is an innovative drug development and commercialization company based in Shanghai, China, with companies in the United States and Hong Kong. Hua Medicine focuses on developing novel therapies for patients with unmet medical needs worldwide. Based on global resources, Hua Medicine teams up with global high-calibre people to develop breakthrough technologies and products, which contribute to innovation in diabetes care. Hua Medicine's cornerstone product HuaTangNing (华堂宁®) (dorzagliatin tablets), targets the glucose sensor glucokinase, restores glucose sensitivity in T2D patients, and stabilizes imbalances in blood glucose levels in patients. HuaTangNing (华堂宁®) was approved by the National Medical Products Administration (NMPA) of China on September 30th, 2022. It can be used alone or in combination with metformin for adult T2D patients. For patients with chronic kidney disease (CKD), no dose adjustment is required. It is an oral hypoglycemic drug that can be used for patients with Type 2 diabetes with renal function impairment.
